John Lewis's collection for bedroom furnishings is an inspiration for every home - the bedroom of your dreams couldn't be easier to create. Whether your look is smart and simple, or divinely decadent, John Lewis has everything starting from its range of duvets, pillows, mattress toppers and protectors, bed linens, and cushions. Its collection of AMICOR anti-allergic pillows and duvets truly adds value to the available product range.

For peace of mind and added health benefits, an anti allergy pillow is a great option. Pillows - made from Amicor - prevent dust mites from being able to live inside the fabric, thereby protecting your child from dust mite allergies.

Amicor Pillows

The light, synthetic duvets having TOG of 4.5 have Amicor™, blended into the filling to create an environment that provides long-lasting protection from dust-mite allergies. The outer cover is made from 100% fine cotton percale.

Amicor Duvets

Amicor Hollow-Fiber Duvets

Duvets having TOG value ranging from 4 to 7 are available in the anti-allergy category of duvets.

John Lewis gives you the option of shopping online and provides mail-order delivery facilities which make life much easier and simpler.
